HOW THE TWO LIPTON RACING YACHTS APPEARED IN A TRIAL SPIN OFF SANDY HOOK LAST WEEK.

THE NEW CUP CHALLENGER, SHAMROCK III.
Leading the old challenger, Shamrock II, in a trial race off Sandy Hook. The new boat has shown marked speed in her workouts.

WRITTEN FOR THE SUNDAY REPUBLIC.

Trial races of the New York Yacht Club to select the defender of the America's Cup will open to-morrow afternoon on the Newport course, and will continue for three or four days. Three yachts are the likely contestants—the Columbia, Constitution and Reliance.

The Columbia and Constitution are former cup defenders. The Reliance is the new Herreshoff boat, designed especially for this season's racing, and supposed to be the highest type of yachting machine of the day. It is generally believed that the new boat will be selected, beyond a doubt, yet certain shrewd yachtsmen believe that the Constitution may be selected.

The older boat gave the Reliance a most decisive beating on the occasion of their meeting. In a run of thirty-seven miles she beat the new boat by one minute and twenty-nine seconds, although her time allowance of two minutes and seventeen sec-

onds was responsible for the victory. This occasion was the second on which the Constitution beat the new boat by time allowance.

The first race was sailed from Glen Cove to New Haven. The conditions then were entirely different from those prevailing on the last meeting. Under both conditions the Constitution managed to win by her allowance. As this allowance would prevail in a race with the Shamrock III, it may be said to happen that the Constitution has a look-in.

COLUMBIA HAS FRIENDS.

More than 20 yachts have assembled at Newport to witness the trial races, the second of which will be held Wednesday, and the final Saturday. Considerable speculation prevails as to which boat will come out on top in the triangular match, and even the Columbia has friends, due to the fact that this boat has shown considerable speed, under certain conditions, apparently as great as that of the Reliance.

August Belmont is said to be manifesting great interest in the Constitution. He has spent all his time aboard her during her trials, and has watched her every move most carefully. No expense has been spared in refitting the older boat with sails, and it is believed that Belmont thinks she has a first-class chance to defeat her younger rival.

The Columbia attracted much attention at first. In several races, soon after the beginning of the Reliance, she managed to beat the new boat by time allowance.

These races were sailed, however, in the most informal fashion, and were merely designed to try out the canvas on the Reliance. The sails were shifted every day and put at a different angle, and then the new boat commenced to draw ahead of the Columbia.

The Columbia has beaten the Reliance on every meeting of the two, it appears as if the first mentioned boat would be the most dangerous competitor for the Reliance. To-morrow's trial spins will show.

DATES OF BIG RACES.

As for the dates of the big races, official announcement has been made that August 29 will be the opening day. The second race will be sailed August 31, the next August 33, and then August 27, 29 and 30, each alternate day, until three out of five races have been decided in favor of one or the other boat.

As an indication of interest in the affair among the Eastern yachtsmen, it may be mentioned that several steamers have been chartered for the trial races alone, places on which are set at \$5 per ticket. This is an official price laid down by the various yacht clubs which have sanctioned the chartering of the vessels.

Not only have the American boats been beaten by their older rivals in informal spins, but even the Shamrock III had the same experience. The Shamrock I has defeated her sister boat on two or three occasions, and has won by decisive margins when the breeze was very fresh.

The challenger, it is said, has shown considerable frailty in high winds. This has caused some doubt as to what her performance will be in case of very rough weather. In a moderate wind the new boat can set a most rattling clip, and she is freely admitted to be about as dangerous a proposition as has ever been sent over here.

In a special trial off the Sandy Hook Lightship, the new boat covered thirty miles in 2 hours, 45 minutes and 20 seconds. This is very close to record time.

DEATH'S DELAY SAVED ESTATE.

Widow Gets \$17,450 That Came Near Going to Creditors.

REPUBLIC SPECIAL.

New York, July 25.—By putting off his death one day Michael Popkin leaves his widow \$17,450, which otherwise would have gone to his creditors. He died on April 8, after being declared bankrupt on April 7. Schedules of himself and wife were filed by the receiver of the firm of M. Popkin & Co., showing liabilities \$12,523 and assets \$24,642, consisting of cash \$43 and life insurance \$24,000. Had Popkin died before bankruptcy enough of this would have gone to his creditors to cover their claims.

ATTELL-REGAN BATTLE PROMISES TO FURNISH GOOD SPARRING BOUT.

Men Look Capable of Putting Up One of the Best Battles Seen at the Club in the Last Year—The Battles of Both Men Against Harry Forbes Indicate That They Are Evenly Matched—General News and Gossip of the Ring and Its Followers.

WRITTEN FOR THE SUNDAY REPUBLIC.

What promises to be the best battle fought at the West End Club for more than a year is carded for August 6, when Johnny Regan and Abe Attell tie up in a fifteen-round go. Though both boys have been taking things rather quietly for the last year, each seems at his old form.

Interest centers in the affair as much on account of the history of either man as on account of their individual merit. When they were both under the management of Jack McKenna they were two of the most widely known men in their respective classes.

Attell is admittedly one of the best men in his class—the 122-pound division. He has fought the best men at this weight, has put up a rattling good fight against Benny Vanger and has shown the highest skill in every battle in which he figured. His record is too well known here to need repetition.

Regan is a first-class little fighter. His twenty-round battle with Harry Forbes, in which George Siler handed down a draw verdict, will be well remembered here. The writer has always believed that Regan had far the better of that fight and that the verdict should have gone to Johnny.

While he will be conceding weight in the pending battle, the experience will not be new to him. He has generally fought at 120 pounds or thereabouts, his manager having been forced to match him against heavier men on account of the unwillingness of the bantams to fight Johnny. Regan can still make 115 pounds readily enough.

The affair is set for fifteen rounds instead of the customary twenty. It was thought that this distance would make the fight fast and that the men would not become exhausted, as might occur in a twenty-round fight in case of the night being particularly hot.

A preliminary, Young Kid McCoy of Pittsburgh is to go eight rounds with Billy Huber of this city. Neither boy has been defeated locally and the prospect is for a good curtain raiser. They are to weigh in at 124 pounds.

Mal Doyle is now handling Johnny Regan. Ike Bloom is representing Abe Attell.

Sizing up the chances of the two men, the result appears doubtful in the extreme. When the two men were in the same stable and a fight between them was out of the question, it was often mentioned that Regan's style of fighting would enable him to cope most successfully with Attell's peculiarly elusive fighting system.

About the only line to be had on the pair as their respective battles with Harry Forbes. Attell fought a rattling fifteen-round go with the bantam champion, who was not then champion, by the way. Forbes, getting the verdict, Regan fought twenty fast rounds with Forbes and got a draw decision. The weights in each battle were 115 pounds.

Regan's showing was generally conceded to be the best. On the other hand, Attell fought a high-class fight, and was unquestionably fustier by Forbes late in the battle. He struggled up gamely and continued the contest under disadvantages. Abe might have received a draw had not the accident occurred.

Attell fought Forbes in Chicago last year and went six fast rounds to a draw with him. That bout was at 135 pounds, both Forbes and Abe having increased in weight in the meanwhile.

It may be thought that Regan will be at some disadvantage on account of his normal weight being 115 pounds, while Attell is close to 122 pounds. The men are, however, that many of Regan's best fights have been against heavier men, the men of his own division being so thoroughly shy of him that he has been forced to take matches in the heavier class.

Brooklyn Tommy Sullivan recently fought twenty fast rounds with Clarence Forbes. Tommy got the decision, but Forbes stayed the limit, Regan met Clarence at Memphis recently and practically put him out in the seventh round. Clarence's seconds throwing up the sponge. Even admitting that Forbes had gone back somewhat before he met Regan, the incident shows that Johnny is a dangerous customer, even for a heavier man.

Doyle intends to let him take on a few pounds this time, and Regan will probably enter the ring at 120 pounds. This weight should result in a rattling battle.

George Gardiner seems determined to get on a bout with Bob Fitzsimmons. Not only has he accepted the challenge let fall by Fitz, but his manager, Andy Craig, has announced that he is willing to bet considerable money on the result of the fight.

The question is whether Fitz can make 165 pounds. He claims that he can do this figure, but it seems most decidedly open to question. If he can, the fight should be one of the best drawing cards possible to secure. That it is so regarded is evidenced by Jack J. Herman's attitude in offering a \$15,000 purse for the affair at Port Erie.

While the Canadian authorities are slaking up the fight situation in Canada just at present, it is not thought likely that any final interference will take place with the game. Ifman hopes to reopen shortly.

Gardiner and Jack Root were both visitors in this city last week, as was Lou Houseman, manager of Root. They were in charge of the fight pictures shown at the Columbia Theater. The pictures, it may be remarked, showed that Gardiner had won his battle most decisively.

Houseman, however, was optimistic concerning his man's chances, and believed that another fight would show that Root had still a chance against Gardiner. That there was some ground for Root's complaint was evidenced in the count of the referee in the fifth round, who appeared to go only to the ninth second.

Root then managed to get to his feet. In the pictures it is impossible to judge whether the referee tolled off the final second or not. Apparently he did not. Even so, however, Root was clearly out. The manner in which he was just before his battle with Jeffries in the last round left no doubt as to which was the better man at that period.

Tommy Ryan, the middle-weight champion, has finally come out with the flat announcement that Corbett is going to win his fight with Jeffries. This won't make Corbett win, of course, but the fact remains that the former champion seems to be in remarkable physical condition.

Corbett has furnished surprises to the sporting world before by rounding into shape when it was generally believed that he could not get back into trim. One such occasion was just before his battle with Jeffries at Coney Island. He got back into first-class shape and the result is now history. Accounts are agreed that Jeffries was lucky to get in the one blow that settled the affair.

Corbett persists in his statement that he is going to get a good punch Jeffries in the face. Those who know him are inclined to throw up their hands at the idea and to predict that the fight can then only be a walkover for Jeffries.

So suicidal would this policy seem that it is likely Corbett has kept announcing his intention of mixing merely to mislead his opponent. He may have Jeffries in mind with the idea that he intends to go in and slug and may then count on getting away and fighting his usual sprinting battle.

Many well-known faces of the pugilistic realm are seen at the race track these days. Frank Hart and Tommy Fitz were visitors last week and both managed to make some money on the outcome of the sport.

Sullivan has been confining himself to his work at Clayton pretty faithfully of late and only drops to the city of an afternoon to find out what is stirring. He has left the ponies alone and has found this system profitable.

Eddie Desmond, a well-known figure at local battles, has also been seen at the track lately and has met with fair success. Harry Mack, a friend of both Hart's and Desmond's, who is a well-known trainer at the Fair Grounds and a well-known figure at local fights, expects to go East to-day to purchase a string of horses.

Hart may blossom out into the racing game and is expected to get hold of several good ones for the near future. Mack has promised to turn over one or two good performers to Frank in the near future.

From present appearances the Young Corbett-Sullivan battle will be set for August 10. Harry Pollak, manager of the champion, is anxious for that date to be selected, and

will be in this city in a few days to settle the matter. Haughton wanted the bout to fall on Thursday and will make an effort to so shift the day as to make this possible.

Sullivan is rather pleased with the post-position that otherwise. He realizes that condition will be an important factor when he meets the champion, and has been putting in some good looks out at Clayton in preparation for the gas if he can make a good showing against the champion. His money-making ability will go up with a jump.

Young Corbett's showing against Jimmy Briggs last Wednesday evening does not indicate that the champion is in any better trim than he usually is. Corbett's policy in these battles seems to be not to train and not to make weight. He will insist upon

DR. CHAS. A. DUFF'S CURES

Are Satisfactory In Every Case Because They Are Complete and There Is No Possible Chance of the Disease Ever Returning.

"To cure any disease is to blot out every symptom, restore the patient to perfect health in every way that the disease has affected, so that not a sign will ever recur during life."

—Chas. A. Duff, M. D.

There are so many men suffering from chronic Pelvic and Private diseases, and the greater number of these victims are still more unfortunate in treating with doctors who know only enough to produce temporary results, or a false cure, if they succeed in benefiting the sufferer at all. There is no such thing as a partial cure of a disease, and the physician whose method does not eradicate every vestige cannot rightly claim to do more than relieve.

My Pelvic Methods Insure Every Man A LIFE-LONG CURE FOR

Blood Poison, Stricture, Nervous Decline, Piles, Rupture, Hydrocele and Diseases of the Kidneys, Bladder and Prostate Gland.

THE ORIGIN, STAGES, DEATH-DEALING COURSE AND ONLY CERTAIN CURE FOR

BLOOD POISON

My Serum Toxin Specific Treatment for Blood Poison is the only remedy known to absolutely cure the disease, remove the cause, and rebuild the entire system from the damaging effects of Mercury and Potash, leaving the patient with new flesh, new blood, new bones and in perfect health.

I will deposit in bank \$10,000, to be forfeited in case of failure to cure any case of Blood Poison in three months, so that not a sign will ever reappear.—Chas. A. Duff, M. D.

My charges are high compared with the prices of quacks and the many cheap offers advertised by "fakers," but I render services that are worth a thousand times what I charge for a cure.

Those who are satisfied that they are perfectly cured, which may be determined by scientific investigation; poor men having families, who have exhausted their means in treating with frauds, I would cure them.

BLOOD POISON is a disease that originates either by contagion (catching) in sexual connection, exposing any mucous membrane to poisonous virus (matter) in kissing, the use of towels, bed clothing and water closets and many similar ways, or inherited from father or mother, and is a disease that attacks the blood and circulates in the system, characterized by three stages, known as primary, secondary and tertiary, though when acquired by inheritance the disease lacks these manifestations and appears in the form of chronic sores, pimples, scrofula, eczema, rheumatic pains in the bones and joints, and many ugly skin diseases and deformities. Contracted blood poison is first noticed by a chancre (a peculiar sore or ulcer), which is the primary stage, and soon the poisoned virus is disseminated through the whole body, first affecting the delicate mucous membranes and causing ulcers in the mouth and throat, small ulcerated patches on the head, face or any part of the body. Blood poison thus passes to tertiary, which is its last and dangerous death-dealing stage, when the entire human organism is contaminated and decay of the flesh and bones sets in. Ulcers eaten to the bone, loss of hair and eyebrows, swollen tonsils, ulcerated throat and mouth, skin eruptions and pimples, spots on the skin, locomotor ataxia, bone pains, loss of flesh and strength, and many other typical symptoms, are all indications that forebode an early end to life.

NO CURE BY MERCURY, POTASH OR VEGETABLE COMPOUNDS AND THEIR INJURY.

For ages it was thought that there was nothing that would check the course of blood poison except its treatment with mercury and potash, and while it was conceded by the best medical authority that it would not cure this dangerous disease, it was the only medicine that would drive the disease into the flesh and bones, and it was the only remedy that would never be administered as a cure for blood poison except by quack doctors, and there is not a case on record where blood poison has been completely eradicated from the system by mercury, potash, so-called vegetable compounds or any hot springs baths. There are few who are not aware of the destruction of mercury and potash to human organism and who, knowingly or otherwise, because it means assisting the disease in torturing and ending life much earlier. There is not one physician in a hundred who does not give their blood-poison patients mercury and potash, although they claim they are not, and all vegetable preparations are nothing but mixtures with potash. If you are treating for blood poison with ordinary doctors and advertised medicines, you had just as well abandon such a course, for you had as well attempt to reach the sun on a beam of light as to be cured in this manner. I have been taking treatment for blood poison to send me a sample of the medicine, which I will have analyzed and reported to them free of charge.

ANTI-TOXIN SERUM, THE ONLY CURE, ITS USE AND INFALLIBLE RESULTS.

My method of curing blood poison is by Anti-Toxin Serum that I introduce into the blood by subcutaneous injection (hypodermic) and internally, and by its antagonism to the virus of blood poison the taint is ejected from the body, as well as the counteraction and removal of mercury and potash poisoning. My serum treatment recognizes the curables of the blood, disorganizes, neutralizes and expels all poison from the system through the same ducts that carry off all other matter. The corpses are renewed with fresh, pure blood, which supplies the tissues that rebuild the entire human organism so that the whole body is restored to its normal size, strength and soundness. This treatment for blood poison has been perfected by the use of the most scientific and reliable methods of modern times, and was tested by experimentation and found to be absolutely infallible. I can offer no better evidence of the reliability that I claim for Anti-Toxin Serum than that many thousands I have cured, or some vital organ, locomotor ataxia, and apparently doomed; and within three months after beginning my course of treatment they were entirely cured, healthy, without a symptom ever recurring at any time. The positive effects of Anti-Toxin Serum are noticeable immediately, as the hair resumes its growth, all manifestations of the disease disappear, the patient begins to increase in weight by the addition of round, healthy flesh; the skin gets clear and rosy by being supplied by poisonous blood, and in ordinary cases in one month from commencing the victim feels that his burden of disease is lifted. My Anti-Toxin Serum is the only known remedy that will absolutely cure blood poison and rebuild the system from the damaging effects of mercury and potash. It drives the poison out of the bones, so that all aches and pains are removed. I invite all sufferers from blood poison to call or write to me, when I will give such information as will satisfy them of the infallibility of my treatment. Correspondence and calls are invited from physicians and specialists having cases of blood poison under their care.

Consultation Free, Confidential and Invited.

I charge nothing for consultation, either by mail or in person, and every man suffering from any of the diseases I treat is at liberty to call or write, when he will receive courteous attention. Those living at a distance are requested to write, giving symptoms, duration and origin of their disease, and I will promptly and accurately answer them, and they will receive no mail from me except in answer to theirs, which will be personal and in a plain sealed envelope, as I positively do not send out question blanks, books, circulars or any kind of second-class mail matter, which characterizes the many unreliable medical institutions. My treatment is administered by mail with the same success I make at my office, and my charges are always so reasonable as to be within the reach of every one. Do not treat elsewhere until you have investigated my methods and terms. Office hours: 8 a. m. to 8 p. m. Sundays, 9 to 1. Address or call on

BLOOD POISONED

SUFFERERS
HERE IS FREE-
DOM FOR YOU

It will bring happiness to thousands who are miserable

FOERG REMEDY CO., Evansville, Ind.

I was taken down last fall with specific blood poisoning. I lay under doctor's care for five months, but nothing seemed to help me. I had great sores on my arms, legs and back and was desperate, when a friend induced me to try a bottle of your remedy. I did so. The first one produced some result, so tried another and another till I used eight in all, and was absolutely cured. Am now as sound as a dollar. If any one has blood poisoning, for God's sake have them try Foerg's. It will cure them.

S. G. GLENN, Crider, Ky.

It has been proven beyond the possibility of a doubt that this medicine quickly cleans up the worst cases of specific blood poisoning and all blood affections. Its work seems astonishingly quick and complete cure, all of which seem to have been permanent, many were photographed in such a condition that a reproduction in a newspaper would be perhaps a shocking sight. This case, given here, in the case of humanity, this paper consented to print, though another newspaper refused to do so. Not a newspaper in Christendom, but should publish every word of this information, if duty and no dollars were the governing rule.

This is not merely a commercial matter, it is a matter of humanity. To tell everybody with a blood disease about this medicine. Among the many cases proven of astonishingly quick and complete cure, all of which seem to have been permanent, many were photographed in such a condition that a reproduction in a newspaper would be perhaps a shocking sight. This case, given here, in the case of humanity, this paper consented to print, though another newspaper refused to do so. Not a newspaper in Christendom, but should publish every word of this information, if duty and no dollars were the governing rule.

FOERG'S REMEDY THE GREAT BLOOD PURIFIER

ALL DRUGGISTS GUARANTEE IT.

If your druggist does not handle this remedy send us \$1.00 for one bottle or \$5.00 for six bottles with our absolute guarantee or money refunded by druggist or this company in full. All packages sent in plain wrappers. All correspondence strictly confidential.

FOERG REMEDY CO., - Evansville, Ind.
